

CASE STUDY: KNOX GRAMMAR SCHOOL, NSW

‘Designed to inspire and promote excellence’

The new Performing Arts Centre at Knox Grammar School has been designed to inspire and promote excellence in music and drama. As the performing arts play an integral role in the cultural life of Knox, state of the art facilities were required to support the next generation of performing artists.

Project Brief:

The flooring brief requested a statement carpet that would withstand heavy foot traffic and general wear over time, whilst also delivering the premium and unique feel that the space required.

Project Challenges:

NBRSEARCHITECTURE wanted to create an impactful space with a custom design floor that also had to be extremely hard wearing so to withstand the heavy foot traffic.

Why Signature Floorconcepts:

Signature Studio custom design programme was the perfect flooring solution for the project. The carpet design features a geometric pattern in a complimentary colour palette made up of cool grey hues and a bold blue linear pattern. This custom carpet has become the hero of the space, with its bold but calming colour choice balanced out by natural light and sleek contemporary furnishings. Playful and personalised design is being used more and more to invigorate communal spaces.

Client Feedback:

NBRSEARCHITECTURE stated they were very happy with the custom carpet design and working with the Signature Studio team.
